

Question 11.1

Topic: Monitoring Plan

Question: When we prepared the initial monitoring plan, we did not know all of the details of the monitoring plan such as the monitor serial numbers. What do we report in the initial monitoring plan submittal?

Answer: Since the initial monitoring plan is submitted prior to the certification tests, the plan should reflect the information that is known prior to the monitoring plan submission. However, additional details should be filled in and submitted when they become available. And, if there should be a change in any of the assumptions used to determine the details of the monitoring plan prior to the testing, the owner or operator is required under § 75.53(b) to update the monitoring plan accordingly.
