

Question 28.5

Topic: Group 5 Exams

Question: Does the Group 5 qualification exam include any questions on Part 75, Appendix E?

Answer: At present there are no questions specifically related to Part 75, Appendix E in the Group 5 exam pool. Appendix E testing involves the use of Methods 3A, and 7E, both of which are covered in the Group 5 exam.

However, when an Appendix E test is performed, the AETB must be aware that Appendix E specifies a number of minor variations from the Method 7E test procedures (e.g., the number of required sampling points for combustion turbines).
