

Question 11.4

Topic: Timing of Tests

Question: Must the 7-day calibration error test and the linearity test be conducted at the same time as the RATA?

Answer: No. In fact, EPA recommends that utility sources complete the required certification tests in the following order:

1. the DAHS verification tests,
2. the cycle time test,
3. the linearity check,
4. the 7-day calibration error test,
5. and the RATA.
